

**PROHIBITION OF SALES TO EEA RETAIL INVESTORS:** The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "EU MiFID II"); or (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended, the "EU Insurance Distribution Directive"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of EU MiFID II. Consequently no key information document required by Regulation (EU) No. 1286/2014 (as amended, the "EU PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the EU PRIIPs Regulation.

**PROHIBITION OF SALES TO UK RETAIL INVESTORS:** The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("UK"). For these purposes, a retail investor means a person who is not a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No. 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (the "EUWA"). Consequently no key information document required by Regulation (EU) No. 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "UK PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

**UK MiFIR PRODUCT GOVERNANCE / PROFESSIONAL INVESTORS AND ECPs ONLY TARGET MARKET:** Solely for the purposes of each manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is only eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook ("COBS"), and professional clients, as defined in Regulation (EU) No. 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("UK MiFIR"); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the manufacturers' target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "UK MiFIR Product Governance Rules") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturers' target market assessment) and determining appropriate distribution channels.

6. **REASONS FOR THE OFFER**
  - (i) Use of Proceeds: The net proceeds, or an amount equal to the net proceeds, of the issuance of the Notes will be used exclusively to fund, in whole or in part, existing and/or future Eligible Projects (as defined below) undertaken at any time following the date falling 12 months prior to the Issue Date.

**"Eligible Projects"** means Expressway Renewal Projects on selected bridges and the reinforcement, repair of slopes forming part of selected earth structures connected to expressways (such as embankments and cut-outs) and construction of porous asphalt pavements on expressways (together **"Specified Renewal Projects"**) which, in each case, meet the Eligibility Criteria (as defined below).

**"Eligibility Criteria"** means:

- (a) projects expected to strengthen the disaster prevention functions of the Issuer's expressways by upgrading and strengthening ageing facilities in response to the expected degree of damage caused by natural disasters (such as typhoons, floods and storm surges) due to the effects of climate change;
- (b) projects expected to make expressways resilient to extreme weather and weather disasters due to the effects of climate change;
- (c) projects for which environmental impact assessment and other technical surveys necessary for the implementation of the relevant construction work have been conducted; and
- (d) projects for which preliminary explanations to neighbouring residents have been provided and for which there are no particular disputes,

and:

Specified Renewal Projects are selected from the projects included in the following guidelines, plans and agreements:

- (1) Recommendation by the Technical Review Committee on Long-Term Conservation and Renewal of Expressway Assets (22 January 2014);
- (2) Large-Scale Renewal and Major Repair on Expressways Managed by the Issuer, East Nippon Expressway Company Limited and West Nippon Expressway Company Limited (22 January 2014);
- (3) Infrastructure Longevity Plan (Action Plan) FY2014-FY2020 (Ministry of LIT, 21 May 2014);
- (4) NEXCO Central Infrastructure Longevity Plan (Action Plan) (31 March 2015);
- (5) Infrastructure Longevity Plan (Second Action Plan) FY2021-FY2025 (Ministry of LIT, 18 June 2021);
- (6) NEXCO Central Infrastructure Longevity Plan (Second Action Plan) (December 2021);

- (7) Interim Report of the Expressway Technical Review Committee on Long-Term Maintenance and Renewal of Expressway Assets (30 January 2020);
- (8) Renewal plan (outline) of NEXCO (East, Central and West) (31 January 2020); and
- (9) Agreement Regarding Chuo Expressway, Fuji-Yoshida Line, etc. (concluded with JEHDRA).

(ii) Process for Project Evaluation and Selection: The Issuer's Finance Division, in consultation with relevant departments such as the Environment and Technical Planning Department, formulates its green project selection criteria. All expressway projects must be approved by the Ministry of LIT and implemented in accordance with the agreements concluded with JEHDRA.

The Issuer formulated a large-scale renewal plan and a large-scale repair plan in January 2014 (together, the "**Plans**") based on the Recommendation by the Technical Review Committee on Long-Term Conservation and Renewal of Expressway Assets (dated 22 January 2014).

Specified Renewal Projects were added in agreements concluded with JEHDRA in March 2015, in accordance with the Act for Partial Revision of the Road Act, etc.

The Issuer formulated a renewal plan (outline) based on the Interim Report of the Expressway Technical Review Committee on Long-Term Maintenance and Renewal of Expressway Assets (January 2020).

Based on the Plans, the Issuer selects construction sites annually based on factors such as past disasters, repair history and inspection results (the "**Selected Construction Sites**").

From the Selected Construction Sites, the Issuer's Finance Division selects construction projects with high demand for funds as the target projects.

(iii) Management of Proceeds: The Issuer's Finance Division and Accounting Division will track, monitor and account for the net proceeds (or an amount equal to the net proceeds) of the issuance of the Notes. Prior to allocation of such amount to Eligible Projects, such amount will be held in the Issuer's exclusive account for each of green bonds and social bonds, including cash and cash equivalents. Eligible Projects will be directly funded by funds from the Issuer's general account, and the total amount so funded will then be transferred from the exclusive green or social bond account to the general account semi-annually.

(iv) Reporting: The Issuer intends to report annually on its website the following information from the issuance of the Notes:

- (a) the amount of net proceeds (or an amount equal to the net proceeds) from the issuance of the

Notes that have been allocated to Eligible Projects; and/or

- (b) until the net proceeds from the issuance (or an amount equal to such proceeds) have been allocated in full, if it is necessary to re-allocate a portion of the net proceeds (or an amount equal to the net proceeds) as a result of a suspension of an Eligible Project, the amount of such proceeds that have not yet been re-allocated.

Furthermore, the Issuer will report on the following additional information and impact metrics:

- (1) in the case of Specified Renewal Projects in respect of bridges, (i) overview (including the number of projects), (ii) the renovated length of the expressway (in kilometres) and (iii) the extent to which the strength of the bridges has been improved by the floor slab replacement and the extent to which the original capacity of the bridges have been restored; and
- (2) in the case of Specified Renewal Projects in respect of earth work structures, (i) overview (including the number of projects), (ii) the renovated length of the expressway (in kilometres), (iii) the extent to which the drainage capacity has improved by the replacement of drainage ditches (with a goal of achieving approximately two to four times improvement) and (iv) the extent to which the strength of the slopes has been restored by the re-installation of ground anchors on cut slopes and the extension of their product life.

The contents of the Issuer's website, including the Issuer's Sustainable Finance Framework, do not form part of these Final Terms.

## APPENDIX 1 ADDITIONAL INFORMATION

### **Additional Risk Factors Relating to the Notes**

#### *The Notes may not be a suitable investment for all investors seeking exposure to green assets*

Although the Issuer intends to use the net proceeds, or an amount equal to the net proceeds, of the issuance of the Notes exclusively to fund, in whole or in part, existing and/or future investments in Eligible Projects, the Notes may not be a suitable investment for all investors seeking exposure to green assets. Prospective investors who intend to invest in the Notes must determine for themselves the relevance of the description of the use of proceeds in these Final Terms for the purposes of any investment by them in the Notes, together with any other investigation that they deem necessary. In particular, no assurance is given to investors that the Eligible Projects will at any time meet investor expectations regarding "green bonds" or "green" projects or other equivalently-labelled projects or any rules or regulations relating to any such labelling (including in relation to, but not limited to, any market standards or guidance, including green bond principles or other similar principles or guidance published by the International Capital Market Association ("**ICMA**") (the "**ICMA Principles**")) or any requirements of such labels or market standards as they may evolve from time to time. The Notes will not be compliant with Regulation (EU) 2023/2631 (the "**EU Green Bond Regulation**") and are only intended to comply with the requirements and processes of the Issuer set out in these Final Terms. It is not clear if the establishment under the EU Green Bond Regulation of the EuGB label and the optional disclosures regime for bonds issued as "environmentally sustainable" could have an impact on investor demand for, and pricing of, green use of proceeds bonds that do not comply with the requirements of the EuGB label or the optional disclosures regime, such as the Notes. It could result in reduced liquidity or lower demand or could otherwise affect the market price of the Notes, as they do not comply with those standards proposed under the EU Green Bond Regulation.

In addition, although the Issuer has stated its intentions relating to use of proceeds and reporting (as set out in these Final Terms), there is no contractual obligation to do so. There can be no assurance that Eligible Projects will be available or capable of being implemented in, or substantially in, the manner and timeframe anticipated and, accordingly, that the Issuer will be able to use an amount equal to the net proceeds of the issue of the Notes for such Eligible Projects as intended. In addition, there can be no assurance that such Eligible Projects will be completed as expected or achieve the impacts or outcomes (environmental or otherwise) originally expected or anticipated.

None of a failure by the Issuer to allocate the proceeds of the Notes or to report on the use of proceeds for Eligible Projects as anticipated or a failure of a third party to issue (or to withdraw) any Second-party Opinion (as defined below) or any other opinion, review certification or post-issuance report in connection with an issue of the Notes or a failure of the Notes to meet investors' expectations or requirements regarding any "green" or similar labels (including in relation to, but not limited to, the ICMA Principles) will constitute an event of default or breach of contract with respect to the Notes.

The Issuer does not undertake to ensure that there are at any time sufficient Eligible Projects to allow for allocation of an amount equal to the net proceeds of the issue of the Notes in full. Additionally, any information that the Issuer provides concerning the environmental or social impacts of Eligible Projects to which proceeds of the Notes have been allocated will be estimates determined by its management to the best of its ability based on the information available to it at such time. The determinations giving rise to such impact information are inherently imprecise and should not be taken as statements of fact.

Japan Credit Rating Agency, Ltd. ("**JCR**") has issued a second-party opinion (the "**Second-party Opinion**") which states that it is of the opinion that the Issuer's Sustainable Finance Framework is aligned with the four core components of the green bond principles set by ICMA in 2021 and the Green Bond Guidelines set by the Ministry of Environment of Japan in 2022, as well as giving its opinion on the consistency of the Eligible Projects with the United Nations' Sustainable Development Goals.

In relation to the Second-party Opinion, prospective investors should be aware that:

- the Second-party Opinion is not part of the Offering Circular or these Final Terms and will not be incorporated in it at any later date;
- Noteholders have no recourse against the provider of the Second-party Opinion;

- the Second-party Opinion is a statement of opinion, not a statement of fact;
- the Second-party Opinion may not reflect the potential impact of all risks related to the structure, market, additional risk factors discussed in the Offering Circular and other factors that may affect the value of the Notes or the Eligible Projects and are not intended to address any credit, market or other aspects of any investment in any Note, including without limitation market price, marketability, investor preference or suitability of any security or any other factors that may affect the value of the Notes;
- the Second-party Opinion does not constitute a recommendation to buy, sell or hold securities and is only current as at the date it is released;
- the criteria and/or considerations that form the basis of the Second-party Opinion may change at any time and such Second-party Opinion may be amended, updated, supplemented, replaced and/or withdrawn (and the Issuer has no obligation to notify investors of any such developments);
- prospective investors must determine for themselves the relevance of the Second-party Opinion for the purpose of investment in the Notes; and
- no assurance or representation is given to investors that the Second-party Opinion will reflect any present or future criteria or guidelines with which investors or their investments are required to comply.

No representation or assurance is given as to the suitability or reliability of the Second-party Opinion or any opinions or certifications of any third party made available in connection with an issue of Notes.

In the event that the Notes are listed or admitted to trading on any dedicated "green", "environmental", "sustainable" or other similarly labelled segment of any stock exchange or securities market, or are included in any dedicated "green", "environmental", "sustainable" or other equivalently-labelled index, no representation or assurance is given by the Issuer that such listing or admission, or inclusion in such index, satisfies whether, in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply. Furthermore, it should be noted that the criteria for any such listings or admission to trading may vary from one stock exchange or securities market to another and that the criteria for inclusion in such index may vary from one index to another. No representation or assurance given or made by the Issuer that any such listing or admission to trading, or inclusion in any such index, will be obtained in respect of the Notes or, if obtained, that any such listing or admission to trading, or inclusion in such index, will be maintained during the life of the Notes.

Any:

- (i) failure to apply the proceeds of the issuance of the Notes in the manner and in the timing set out in these Final Terms;
- (ii) withdrawal of the Second-party Opinion or superseding of the Second-party Opinion by an opinion or certification stating that the Issuer has not complied, in whole or in part, with any matters on which the Second-party Opinion had opined;
- (iii) event or circumstances resulting in the Notes no longer being listed or admitted to trading on any stock exchange or securities market, or included in any index, including the Singapore Exchange Securities Trading Limited; and/or
- (iv) the materialisation of any of the other risks outlined above,

may have a material adverse effect on the value of the Notes and could also result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose.

It should also be noted that the performance of the Notes is not linked to the performance of the Eligible Projects or the performance of Issuer in respect of any environmental or similar targets. Consequently, neither payments of principal and/or interest on the Notes nor any rights of Noteholders shall depend on the performance of the relevant Eligible Projects or the performance of the Issuer in respect of any such

environmental or similar targets. Holders of Notes shall have no preferential rights or priority against the assets of any Eligible Projects nor benefit from any arrangements to enhance the performance of the Notes.
