

# Reporting

- The net proceeds of JPY Green Bond series99 has been fully allocated. (As of 30th June, 2023)
- Allocation and Impact Reporting is shown as below

Project	Number of projects	Allocation amount ※1	Output ※2	Outcome ※3
Expressway Renewal Projects on Bridges	22	JPY 29,989 million	1.8km	Soundness of the bridge (Restored to original condition)
Expressway Renewal Projects on Earthworks Structures (slopes)	1	JPY 11 million	0.3km	Soundness of the slope (Prolonging product life)
Expressway Renewal Projects on Earthworks Structures (drainage)	—	—	—	Improving drainage capacity (About 2 to 4 times capacity improvement)
High-Performance Pavement ※4	—	—	—	Amount of stored water and water flow per hour (8mm/h)
<b>Total</b>	<b>23</b>	<b>JPY 30,000 million (Fully allocated)</b>		

※1 The total amount may not match due to rounding.

※2 Outputs represent the extended kilometers for large-scale renewal and repair projects.

※3 Outcomes through specified renewal work projects are expected to contribute towards creating an impact for maintaining a safe and reliable transportation network, by strengthening the transportation infrastructure against natural disasters (wind and water disasters) that result from climate change that adversely affect the transportation infrastructure as envisioned by the MLIT Climate Change Adaptation Plan.

※4 Proceeds from the Green Bond have not been allocated to newly constructed expressways.

## ■ Overview of eligible projects (1)

Eligible projects	Project description※	Area
Expressway Renewal Project on Bridge	Chuo Expressway - bridge repair work(i)	Nagano Prefecture
Expressway Renewal Project on Bridge	Chuo Expressway - bridge repair work(ii)	Nagano Prefecture
Expressway Renewal Project on Bridge	Meishin Expressway - bridge repair work	Gifu Prefecture
Expressway Renewal Project on Bridge	Meishin Expressway - floor slab replacement work	Shiga Prefecture
Expressway Renewal Project on Bridge	Meishin Expressway - bridge repair work	Shiga Prefecture
Expressway Renewal Project on Bridge	Hokuriku Expressway - floor slab replacement work(i)	Shiga Prefecture
Expressway Renewal Project on Bridge	Hokuriku Expressway - floor slab replacement work(ii)	Shiga Prefecture
Expressway Renewal Project on Bridge	Hokuriku Expressway - bridge repair work(i)	Shiga Prefecture
Expressway Renewal Project on Bridge	Hokuriku Expressway - bridge repair work(ii)	Shiga Prefecture
Expressway Renewal Project on Bridge	Hokuriku Expressway - bridge repair work(ii)	Shiga Prefecture
Expressway Renewal Project on Bridge	Hokuriku Expressway - floor slab replacement work(i)	Toyama Prefecture

※The main content of “bridge repair work” is the repair and reinforcement of floor slabs (high-performance floor slab waterproofing, etc.) and work incidental to floor slab replacement.

## ■ Overview of eligible projects (2)

Eligible projects	Project description※	Area
Expressway Renewal Project on Bridge	Hokuriku Expressway - floor slab replacement work(ii)	Toyama Prefecture
Expressway Renewal Project on Bridge	Hokuriku Expressway - floor slab replacement work(iii)	Toyama Prefecture
Expressway Renewal Project on Bridge	Hokuriku Expressway - bridge repair work(i)	Toyama Prefecture
Expressway Renewal Project on Bridge	Hokuriku Expressway - bridge repair work(ii)	Toyama Prefecture
Expressway Renewal Project on Bridge	Hokuriku Expressway - floor slab replacement work(i)	Ishikawa Prefecture
Expressway Renewal Project on Bridge	Hokuriku Expressway - floor slab replacement work(ii)	Ishikawa Prefecture
Expressway Renewal Project on Bridge	Hokuriku Expressway - floor slab replacement work(iii)	Ishikawa Prefecture
Expressway Renewal Project on Bridge	Hokuriku Expressway - floor slab replacement work(i)	Fukui Prefecture
Expressway Renewal Project on Bridge	Hokuriku Expressway - floor slab replacement work(ii)	Fukui Prefecture
Expressway Renewal Project on Bridge	Hokuriku Expressway - floor slab replacement work(iii)	Fukui Prefecture
Expressway Renewal Project on Bridge	Hokuriku Expressway - bridge repair work	Fukui Prefecture
Expressway Renewal Project on Earthworks Structures (slope)	Tomei Expressway - slope reinforcement work	Aichi Prefecture

※The main content of “bridge repair work” is the repair and reinforcement of floor slabs (high-performance floor slab waterproofing, etc.) and work incidental to floor slab replacement.
