Reporting

Until full allocation of the net proceeds, allocation and impact reporting is provided on our website.

Allocation and Impact Reporting is shown as below (As of 26th June, 2024)

Project	Number of projects	Allocation amount %1 (Unallocated amount)	Target population	Social indicators %2		
				Outputs	Outcomes	
Repair projects to weaken the power of disasters and minimize damage	61	JPY 46,542 million				
Repair projects to protect users through promptly distributing information to prevent secondary disasters	32	JPY 17,986 million	Expressway users in case of a disaster	See Annex.		
Repair projects to safely evacuate users involved in disasters	2	JPY 2,583 million				
Four-lane expansion projects that will benefit neighboring residents by preventing expressways blockage and enabling prompt road restoration in case of a disaster	21	JPY 11,675 million	Neighboring residents of the expressway			
Total	116	JPY 78,785million (JPY 41,215 million)				

- %1 The total amount may not match due to rounding.
- X2 Through the implementation of disaster prevention measures and measures against aging infrastructure, the resilience of transportation infrastructure will be strengthened. This will provide social impact to expressway users and neighboring residents in case of disaster. These projects are in line with the Fundamental Plan for National Resilience and the Infrastructure Longevity Plan established by the Japanese government.
